MONTICELLO • FLORIDA

## Wholesale Price List

### FALL 1941--SPRING 1942

#### *Aërial View of Nursery*

This picture shows you a little over half of the 600 acres of fine nursery stock grown by us. In it also is a part of the orchards of heavy-bearing Pecans from which we get the budwood to grow the nursery trees.

This is one of the largest nurseries in the South, and includes most of the plants that are satisfactorily grown south of the Mason-Dixon's Line.

---

To the Trade:

Another very favorable season for nursery sales is at hand. Fortunately we have had well spaced rains to keep the stock in a good vigorous condition, and the plants are in fine shape this fall.

We have a good stock of Broad-leaf evergreens, some mighty nice conifers, and Azaleas in many sizes, up to 4 ft. in some varieties. We grow most of the items being used on government work in the southeast- and will be glad to have your want lists for quotation.

TERMS:

To customers with established credit, 2% 10 days net 30 days. We will allow 5% discount for cash.

As you will note by the map on the back of this list Monticello is within reasonable trucking distance of most points in the territory in which the plant materials we grow will thrive, and we invite you to come to the nursery.
